Priti Dattani

As a passionate entrepreneur from a family of business leaders, I've launched my own jewelry brand, blending artistry with innovative design. With diligent attention to detail, I craft unique, customized pieces. While driving my startup forward, I'm also pursuing an MBA to master the business side and manual Jewelry designing course. My goal is to excel in both design and entrepreneurship, establishing my brand as a benchmark for excellence. Through dedication and hard work, I aim to make a lasting impact in the industry, building a reputation for exceptional quality, creativity, and customer satisfaction.

Vaishnavi Kulal

A creative strategist with a passion for design and business. As a Brand and Business Development Associate, I'm involved in a wide range of projects, from brand strategy to operational efficiency. I'm passionate about crafting meaningful brand experiences that resonate with audiences. Beyond my professional role, I'm an artist at heart, finding joy in the intricate process of bookbinding and journal making. I'm continually seeking opportunities to explore the intersection of design, business, and creativity, and I'm excited to see where this journey takes me. Besides, I'm also deeply connected to my Tulu heritage, a language that is unfortunately becoming increasingly vulnerable. I believe in the importance of preserving our linguistic diversity and promoting the rich cultural heritage of Tulu.

Ever questioned the power in true self-mastery? Guided by the discipline of Bruce Lee, I stand grounded yet fierce—a quiet force with inner strength that runs deep. Every move is deliberate, each choice an echo of purpose. My path is one of impact, connection, and a relentless pursuit of meaning. The real question is—are you ready to look within and embrace the journey?

Born and brought up in Sindhudurg, heart of Konkan, I have always been fascinated about the wonders of nature and how people are connected to it. Some nature oriented traditions and culture are being practiced in local community. People belonging to these communities possess some incredible skills in different forms. My goal is to provide opportunity to poor and marginalized people who are close to nature. Currently I am employed as a research analyst. I am a Physicist by training, with my heart in utilising my professional skills in social problem-solving. I recently obtained my PhD at KU Leuven, Belgium wherein I worked on predicting the space weather impact due to solar storms on our lives. I'm bothered by the implications of climate change. It is high time I decided to contribute my bit to climate action. In this yatra, I hope to get inspired by the bright minds and gain perspectives about the specific problems I would like to tackle. I am looking forward to networking and dancing along this unique journey.

I would describe myself as someone who is passionate about entrepreneurship and who has always had the desire to create solutions that make a difference. Growing up I was always surrounded by businessmen/entrepreneurs in my family which I believe was the spark that ignited the desire to become an entrepreneur myself. Having a background in designing, I pursued a career in this field for some time but realised soon enough that I will not be satisfied if I continue working as a designer which led me to start working on a platform focused on empowering retailers in small cities and towns in our country.

Raghav Malhotra

I'm educated as an architect and practicing as a designer-project manager focusing on adaptability and results. Redeveloping modernist townhouses in Delhi has been a recent work accomplishment. My passion for my work stems from a deep sense of ownership, a drive to solve problems, and the desire to create something from the ground up. I'm intrigued by the intersection of design, infrastructure, and enterprise: and I'm eager to embrace the Indian entrepreneurial wave. I believe creativity can transform behavior and benefit both people and business.

I'm generally a very curious person. I love to explore and be a forever student. I love to get involved fully when I'm committing to something that I feel passionate about. I'm presently working as a breakfast show radio host in Chennai for a Hindi radio station. More over I have also been working as a voice over and dubbing artist. I'm a polyglot. I speak English Hindi Malayalam and Tamil. I believe language also is great gateway to explore people, culture food and their rituals. And my travel journey helps me in achievements all of the above and humbles me and most importantly keeps my childlike curiosity alive

Amisha Kumari

Namaste! I'm Amisha, a girl with many dreams, navigating the journey of life with all its ups and downs. I've reached a stage where I can distinguish between right and wrong. I wanna give my best to do for society especially who is in actual need. I graduated with a BBA from Bangalore and have decided to put off pursuing an MBA for now to focus on gaining real-life experiences and practical learning. As for my personality, I would describe myself as a happy and positive person. I love connecting with people who resonate with my vibe. My best days are when I can deeply understand someone in need and help them, even if it's just by 0.1%. Making a small difference in someone's day truly brings me joy.

Manjunath Pandava

I have an 18-year background as a Software Engineer, progressing to a Senior Manager role. Last year, I embarked on my entrepreneurial journey by establishing a modern sheep farm in my village, initially planning to return to my career once it was running. However, the experience inspired me to fully embrace entrepreneurship. I'm now researching about meat processing, with plans to expand in this direction. I'm married and I have two school-age sons. I enjoy reading books focused on personal growth, understanding people, and achieving success. Frequently visiting my village, where my parents live, inspired my decision to build my career in rural development.

SAI LAKSHMI K

Oscar Wild once said, " if you know what you want to be, then you will inevitably become it - that is your punishment, but if you do not know, then you can be anything".

This pretty much describes how I see this phase of my life. I know not for sure a fixed path that i will be walking along. But I know for sure that right now I love discovering and walking different paths and that someday I will significantly contribute to education and the socio-technological development of my Nation.

My tech journey began after 10th grade when I explored career options and found my passion in websites and applications. I started learning on my home PC, where I discovered WordPress, which fueled my enthusiasm and led me deeper into web technology. After 12th, I pursued an ITI course in Computer Hardware, and my institution encouraged me to join IndiaSkills in Web Technologies. I cleared district and taluka levels, winning a gold medal twice. This experience allowed me to train with experts. Inspired by the growing impact of AI, I founded The Bunny Tech to address business challenges through AI-driven solutions, including an AI-powered Smart Search plugin that integrates effortlessly into websites for SMEs.

Siddhesh Khot

I'm Sid, a product designer and freelancer who's always diving into new ideas. I've worked on a few of my own products – they didn't exactly take off, but each one taught me a ton! I also had the chance to intern as a product designer at Kotak Bank, where I gained hands-on experience in crafting user-centered designs for real-world applications. From design insights to the real-life challenges of bringing ideas to life, I learned more than I could have imagined. Now, I'm excited to be working on my next project, putting all those lessons to good use.
